Patient is due for Lifetime HIV screening

Explain importance of a Lifetime HIV Screening to patient

Our clinic routinely screens all patients for HIV. We will test you this visit for HIV. If your test is positive, treatment for HIV is available. OK?

Has patient had an HIV Test done in the past?

Request recent results

Patient agrees to screening

Inform patient; as a part of our care we will continue to offer until lab is complete

Restart workflow during next visit. Offer HIV lab until patient agrees.
